

Today we celebrated Red Nose Day at the nursery.

Children were taught the significance of the day, and the fortunate positions they are in to have the basic necessities such as running water, bath tubs and clean clothes.

We also taught the importance of giving to charity, and to those children who have lack access to the basic essentials.

Children were encouraged to watch Comic Relief programme tonight to see how money is raised in different ways through various activities and charities.

Check out our [gallery](#) for pictures of the day.
